

DEREK E. SAWYER

The Ohio State University | School of Earth Sciences
 309 Mendenhall Laboratory | Columbus, OH, 43210
 614-292-7243 | sawyer.144@osu.edu
<http://u.osu.edu/basins/>

RESEARCH SUMMARY

- Sedimentary systems with a focus on natural hazards of submarine landslides, tsunamis, earthquakes, and hurricanes
- Study sites span the range of shallow water coastal environments to deepwater continental margins and sedimentary basins in passive and active tectonic settings
- Focus on Neogene-age (<25 m.y.) geological systems including present day surface systems and deeper subsurface systems back through the Miocene.
- Methods include acquisition/processing/interpretation of geophysical data (multi-channel seismic and multibeam) and sediment cores and samples, numerical modeling, and physical experiments

EDUCATION

Ph.D. (2010), Geological Sciences, The University of Texas at Austin
 M.S. (2006), Geosciences, The Pennsylvania State University
 B.S. (2002), Marine Science, Eckerd College

PROFESSIONAL EXPERIENCE

2020-Present	Associate Professor, The Ohio State University, School of Earth Sciences
2014-2020	Assistant Professor, The Ohio State University, School of Earth Sciences
2013-2014	Assistant Professor, University of Kentucky, Dep. of Earth & Env. Sciences
2011-2012	Exploration Geologist, ExxonMobil Exploration Co., Houston Texas

AWARDS AND RECOGNITION

2020-2025	NSF Career Award, Ocean Sciences, Marine Geology and Geophysics Program
2019-2021	Early Career Research Fellow, National Academies of Sciences, Engineering, and Medicine, Gulf Research Program
2018-2019	Faculty Fellow, Ohio State Center for Energy Research, Training, and Innovation (CERTAIN), The Ohio State University
2010	Best Ph.D. Student Technical Session, spring semester (UT Austin Jackson School)
2008	Outstanding Student Paper Award (AGU Fall meeting)
2005	Outstanding Student Paper Award (AGU Fall meeting)

PUBLICATIONS (* indicates student or post-doc of D. Sawyer)

FUNDED GRANTS AND FELLOWSHIPS

1. 1/20-1/25. *CAREER: Impacts of Earthquake Shaking on Seafloor Sediment Stability and Landslide Hazards*, National Science Foundation,
Submitted to National Science Foundation, Marine Geology and Geophysics Program
Total Award Requested: \$558,710
PI: D. Sawyer
Co-PIs: None
Explanation of Role: I am the sole awardee on this 5-year grant.
2. 9/1/19-8/31/21. *Early Career Research Fellowship, National Academies of Sciences, Engineering, and Medicine, Gulf Research Program* (\$75,000)
PI: Sawyer, Derek
Co-PI: none
Explanation of Role: I am the sole awardee on this 2-year fellowship.
2. 7/1/18-6/30/20. *Collaborative Research: Constraints on sediment physical properties at the Cape Fear and Currituck landslides from velocity analysis of new, open access seismic reflection data.* National Science Foundation. \$130,498 award to DS (\$446,713 total award)
PI: Sawyer, Derek
Co-PI: none at Ohio State, Collaborative with Lamont Doherty Earth Observatory, Columbia University
Explanation of Role: I am sole PI at Ohio State. I am responsible for pore pressure prediction using inversion results generate by the Columbia team.
3. 10/1/17-9/30/18. *RAPID: Post-Hurricane Irma Erosion and Deposition in Coastal Embayments of Eastern St. John, U.S. Virgin Islands.* National Science Foundation. \$52,835 total award.
PI: Sawyer, Derek
Role: Principal Investigator
Explanation of Role: I am the sole PI on this award. I conceived of the idea and wrote the proposal.
4. 2018-2021. *Educational Software Gift*, Schlumberger, (\$93M), software, 40 network licenses (PETREL, ECLIPSE, VISAGE, INTERSECT, PETROMOD, TECHLOG)
Co-PIs: D. Sawyer, A. Cook, J. Moortgat
5. 10/14-9/20. *Deepwater methane hydrate characterization and scientific assessment.* U.S. Department of Energy. \$83,900,000 Total Award.
Grant/Contract Number: DE-FE0023919
PI: Flemings, Peter
Award Co-PI: Cook, Ann, Goldberg, David, Divins, David, Collett Tim.
Ohio State Co-PI: D. Sawyer.
Role: Technical expertise in seismic data analysis, and well site planning
6. 10/15/2018 - 10/15/2021 *Educational Software Grant*
IHS software, 40 network licenses (KingdomSuite, AVOPAK, RSA, and LoadPAK
Software gift-in-kind value: \$2.5M
Co-PI: A. Cook
I co-wrote the application process including with ASC development. I use this software in my 4-credit course Reflection Seismology (EARTHSC 5780).

7. 02/17-5/17. Western North Atlantic Slope Stability: an IODP Workshop Proposal to Coalesce Three Mini-Proposals into a Full IODP Proposal. U.S. Advisory Committee for Scientific Ocean Drilling (USAC). Total award: \$22,762.
PI: Matthew Hornbach, Southern Methodist University
Co-PI: Sawyer, Derek, Hugh Daigle (University of Texas at Austin), and Jenna Hill (US Geological Survey).
8. 2016-2018. *Establishing an Industry Partnership*. Ohio State Subsurface Energy Research Consortium (SERC).
Total award \$1937
Co-PIs: Derek Sawyer, Ann Cook.
9. 7/1/2018-7/31/2019. *Enhancing the Educational Mission of SERC: Sedimentology and Stratigraphy of Mixed Carbonate-Siliciclastic Systems through Analysis of the Point Pleasant Formation and the Permian Guadalupe Mountains*
The Ohio State University Subsurface Energy Research Center (SERC) Faculty Fellowship Program
\$18,000 award to DS.
Explanation of role: I am the sole PI on this project. I conceived of the idea and wrote the proposal.
10. 8/1/16-7/30/18. *Seismicity-Enhanced Compaction in Fine-Grained Deepwater Sediments*. American Chemical Society Petroleum Research Fund New Doctoral Investigator. Total award \$110,000.
PI: Sawyer, Derek
Explanation of Role: I am the sole PI on this project. I conceived of the idea and wrote the proposal.
11. 6/1/17-5/30-19. *Shake the Shoe: Connecting Football and Science with the Best Fans in the Land*. Battelle Engineering Technology and Human Affairs (BETHA). \$62,762 total award (all funds under my direction and it is all to purchase equipment, fund student workers, and purchase outreach materials).
PI: Sawyer, Derek
Co-PI: Ann Cook and Wendy Panero (Ohio State); Mike Brudzinski (Miami University)
Explanation of Role: I lead this project and presented the original idea and co-developed the idea with co-PIs.
12. 8/1/14-9/30/15. *Insight into Submarine Landslide Flow Behavior from Particle Size Analysis and 3D Seismic*, Site C0021, IODP Expedition 338. Integrated Ocean Drilling Program through United States Science Support Program. Total amount \$15,000
PI: Sawyer, Derek
Explanation of Role: I am the sole PI on this project. I conceived of the idea and wrote the proposal.

PROPOSALS PENDING

1. submitted April, 2019, International Ocean Discovery Program, Ancillary Project Letter, "Climatic Forcing on Late Cenozoic Drought Variability of the Sahara/Sahel and the Impacts on Sediment/Nutrient Flux to the Niger Delta and the Atlantic Ocean"
Lead Proponent: Zane Jobe
Co-proponents: D. Sawyer, N. Slowey, B. Romans, A. Parker, Z. Sylvester
Data lead: D. Sawyer

2. submitted April, 2019, International Ocean Discovery Program, pre-proposal, “ICEMAN (cordilleran ICE sheet, Missoula floods And Nearshore environments)”
 Lead Proponent: Maureen Walczak
 Co-proponents: J. Hill, I. Hendy, C. Belanger, J. Biddle, L. Childress, K. Costa, J. Gombiner, S. Kienast, L. Lembke-Jene, K. Lloyd, C. Lopes, M. Lyle, A. Mix, S. Pretorius, D. Sawyer, J. Stoner, and S. Zellers
 Data lead: D. Sawyer

RESEARCH RELEVANT ACTIVITIES

- 2019:** Led class field trip to Guadalupe Mountains, New Mexico and Texas, Mar. 11-16.
- 2017:** Rapid deployment field excursion to St. John, U.S. Virgin Islands following 2017 Hurricanes. Coastal multibeam acoustic sonar surveying in shallow-draft vessel, sediment grab sampling and push coring. Nov. 22-Dec.06.
- 2017:** Multibeam sonar mapping and sediment coring in St. John and St. Croix, U.S. Virgin Islands. Jul. 26-Aug. 02.
- 2017:** Multibeam sonar mapping, Lake Erie, South Bass Island, Sep. 15-17.
- 2014:** Shipboard scientist, *R/V Marcus G. Langseth*, GeoPRISMS Eastern North American Community Seismic Experiment, offshore North Carolina, Sep. 14 – Oct. 23.
- 2014:** Led class field trip to Pine Mountain thrust fault, Cumberland Gap, Tennessee, Apr. 18-19.
- 2010-2012:** Operations Geologist, ExxonMobil Exploration Co., Houston TX. Specialist position in pore pressure prediction, wellsite pressure surveillance (offshore Romania, Black Sea and deepwater Gulf of Mexico), site investigation, engineering geophysical site surveys, and integrated geological and geophysical investigations for deepwater development fields (Gulf of Mexico, Australia, Nigeria). Wellsite operations geologist, pore pressure surveillance and wireline logging deepwater Black Sea exploration well. Wellsite operations geologist and pore pressure surveillance, deepwater Gulf of Mexico exploration well.
- 2005:** Shipboard sedimentologist for Integrated Ocean Drilling Program Expedition 308, northern Gulf of Mexico (6 weeks).
- 2004:** Seismic reflection acquisition cruise, deepwater Gulf of Mexico (1 week).
- 2003:** Shipboard physical properties specialist on Ocean Drilling Program Leg 210, offshore Newfoundland (8 weeks).
- 2000-2002:** Undergraduate research field assistant: I participated in 4 vibra-coring day trips in Tampa Bay, 2 dive operations to ledges in the Gulf of Mexico, 4 multi-beam/side scan sonar/dive-ops cruises in Gulf of Mexico with the University of South Florida and Eckerd College.

RESEARCH STATEMENT

My research program is focused on sedimentary systems with an emphasis on natural hazards of submarine landslides, tsunami, earthquakes, and hurricanes. I examine them with a variety of indirect and direct methods including acquisition/processing/interpretation of geophysical data (multi-channel seismic and multibeam), borehole logs, and sediment cores and samples, as well as numerical modeling, and physical experiments. Study sites span the range of shallow water coastal environments to deepwater continental margins and sedimentary basins in passive and active tectonic settings. In terms of geological time, I focus on Neogene-age (<25 m.y.) geological systems including present day surface systems and deeper subsurface systems back through the Miocene.

I have made contributions that allow back-analyses of failure style and other dynamic aspects of underwater landslides as recorded in seismic, well, and core data of landslide deposits (Sawyer et al., 2019; Moore et al., 2013, Sawyer et al., 2012). I have made contributions on the pre-failure properties of sediments. In particular, my work has documented a characteristic strengthening observed in seismically active margins (Sawyer et al., 2017, and Sawyer et al., 2015). I have examined the important follow-up question: what are the characteristics of landslides that are generated from denser

sediment. This is an important distinction to make given that initial acceleration of a landslide is a critical variable that determines amplitude of slide-generated tsunami. I am exploring this in new projects offshore Japan (Moore and Sawyer, 2016) and Oregon (Lenz et al., 2018).

I work closely with the International Ocean Discovery Program (IODP) as a scientist (shipboard and shore-based) and a panelist on the Science Evaluation Panel (2013-2016). My current IODP projects include lead proponent on a new proposal (to be resubmitted in October, 2019) focused on offshore North Carolina to study the Cape Fear landslide complex. This proposal is an outcome of a 5-week NSF GeoPRISMS marine seismic acquisition program in 2014, which I participated in, an IODP-funded workshop in 2017, and an active NSF (2018-2020) collaborative grant with Lamont-Doherty Earth Observatory of Columbia University. I have ongoing work as part of the IODP Exp. 338 offshore Japan, where I was shore-based scientists to study relationships between earthquakes and landslides. I have published 1 journal article with lead authorship by a graduate advisee (Moore and Sawyer, 2016), an undergraduate thesis (T. Rohan), 2 data reports, and several presentations as a result of this project.

In addition to my scholarly involvement in the International Ocean Discovery Program, I have active projects in the U.S. Virgin Islands to understand the geological impacts and records of the Category 5 Hurricanes that affected this region in 2017 as well as paleo-tsunami investigations in St. Croix. This project received RAPID funding by the National Science Foundation and is involving my Ph.D. advisee as lead author on a recent publication (Browning et al., 2019). This is part of my effort to extend my research program to include coastal environments because hazards have the largest impact, especially human-related, on coastlines.

My research program dovetails with my teaching. In particular I teach Reflection Seismology that includes hands-on instruction in the computer lab with seismic interpretation software and real-world datasets. I teach a graduate seminar on coastal geology that utilizes acquisition and interpretation of multibeam sonar and sediment cores on Lake Erie. I also teach a field stratigraphy course to the Guadalupe Mountains to examine the classic stratigraphy of shallow-to-deep marine systems in mixed carbonate and siliciclastic systems.

I have won several external funding awards for research and I have a diversified funding record, including awards from the National Science Foundation, American Chemical Society, Department of Energy, and International Ocean Discovery Program. I have published scholarly works in top journals, and I have received invited talks at major meetings.

GRADED COURSES TAUGHT

Graded courses taught at Ohio State

Spring, 2020	Reflection Seismology (ES 5780) Lecture and Lab Graduate and undergraduate course, 9 students, SEI overall score (0-5.0): 4.86
Spring, 2020	Energy and Environment (ES 2155/SENR 2155) Lecture Co-instructor with Jeffrey Jacquet (SENR) Undergraduate course, 60 students, SEI overall score (0-5.0): 4.18
Fall, 2019	Sedimentation and Stratigraphy (ES 4502/6502) Co-instructor, assistant to L. Krissek Graduate/Undergraduate, 14 students
Spring, 2019	Energy and Mineral Resources in Society (ES 2210), Undergraduate, general education, 37 students, SEI overall score (0-5.0): 4.67

Spring, 2019	Field Stratigraphy in the Guadalupe Mountains (ES 8801-10) Graduate and undergraduate course, 10 students, SEI overall score (0-5.0): 4.50
Fall, 2018	Internship in the Earth Sciences (ES 5191) Undergraduate, 3 students, SEI score: N/A
Fall, 2018	Reflection Seismology (ES 5780) Lecture and Lab Graduate and undergraduate course, 10 students, SEI overall score (0-5.0): 4.90
Summer, 2018	Internship in the Earth Sciences (ES 5191) Undergraduate, 1 student, SEI score: N/A
Spring, 2018	Energy and Mineral Resources in Society (ES 2210), Undergraduate, general education, 40 students, SEI overall score (0-5.0): 4.50
Fall, 2017	Reflection Seismology (ES 5780) Lecture and Lab Graduate and undergraduate course, 11 students, SEI overall score (0-5.0): 5.00
Fall, 2017	Coastal Geology (ES 8801-10) Graduate course, 10 students, SEI overall score (0-5.0): 5.00
Spring, 2017	Energy and Mineral Resources in Society (ES 2210) Undergraduate, general education, 20 students, SEI overall score (0-5.0): 5.00
Fall, 2016	Reflection Seismology (ES 5780) Lecture and Lab Graduate and undergraduate course, 20 students, SEI overall score (0-5.0): 5.00
Spring, 2016	Energy and Mineral Resources in Society (ES 2210) Undergraduate, general education, 36 students, SEI overall score (0-5.0): 4.10
Fall, 2015	Reflection Seismology (ES 5780) Lecture and Lab Graduate and undergraduate course, 34 students, SEI overall score (0-5.0): 4.30
Fall, 2015	Seminar in Subsurface Interpretation (ES 8860) co-taught with Ann Cook Graduate course, 7 students, SEI overall score (0-5.0): 4.50
Spring, 2015	Energy and Mineral Resources in Society (ES 2210) Undergraduate, general education, 34 students, SEI overall score (0-5.0): 4.50

STUDENTS SUPERVISED

Doctoral Student (Dissertation Supervisor) (4)

- 2015 – 2020 Browning, Trevor N. Assessing Vulnerability to Watershed Erosion and Coastal Deposition in the Tropics. The Ohio State University, Columbus, Ohio, United States. Graduation May, 2020.
- Lead author on 2 published journal articles
 - Awarded a graduate research fellowship from the Geological Society of America for thesis fieldwork
 - Outstanding TA Award, SES, 2018
- 2017 – Present Lenz, Brandi L. Submarine Landslide Formation and Runout Dynamics, offshore Oregon. The Ohio State University, Columbus, Ohio, United States. Graduation Expected 2021.
- Lead author on a 2018 article, which is the first chapter of her PhD dissertation.
 - Selected to participate in an early career marine seismic expedition offshore Oregon funded by the National Science Foundation. Brandi was one of 26 members from schools across the country composed of 19 early career scientists, 2 postdoc mentors, 4 research scientists, and 1 science writer.
- 2019 – Present Fillingham, Jacob. Timing and Nature of Retrogressive Failure at the Cape Fear Underwater Landslide Complex, Offshore North Carolina, U.S.A. The Ohio State University, Columbus, Ohio, United States. Graduation Expected 2024.
- 2020 – Present Fitzgerald, Bailey. Title TBD. The Ohio State University, Columbus, Ohio, United States. Graduation Expected 2025.

Masters Student (Thesis Advisor) (8)

- 2019 – Present Martinez, Gabriel. Three-dimensional Seismic Geomorphology of a Large Underwater Landslide, Northern Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- Awarded a university enrichment fellowship (2019-2020)
- 2015 – 2018 Russell, Paul. Tsunami Stratigraphy in a Salt Pond on St. Croix, US Virgin Islands. The Ohio State University, Columbus, Ohio, United States.
- Awarded a graduate research fellowship from the Geological Society of America for thesis fieldwork
- 2016 – 2018 Trotter, Bennett. Pore Pressure in the Deep Utica Shale and Point Pleasant Formation. The Ohio State University, Columbus, Ohio, United States. Co-advised with Ann Cook.
- 2015 – 2017 Treiber, Katie. Deepwater Channel Systems in the Orca and Choctaw Basins, Northern Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2016 Yang, Chen. Petrophysical and Geophysical Interpretation of a Potential Gas Hydrate Reservoir at Alaminos Canyon 810, Northern Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States. Co-advised with Ann Cook.

- 2014 – 2016 DeVore, Joshua. Mudstone Consolidation in the Presence of Seismicity. The Ohio State University, Columbus, Ohio, United States.
- Awarded a graduate research fellowship from the Geological Society of America
 - 2nd author on a 2015 journal article that he and I published resulting from a portion of his MS thesis work
- 2014 – 2015 Akinci, Levent. An Analytical Modelling Approach to Test if a Rising Salt Diapir Triggered the Cape Fear Landslide. The Ohio State University, Columbus, Ohio, United States.
- Awarded a graduate research fellowship from the Geological Society of America
 - Lead author on a peer-reviewed conference proceedings paper.
- 2013 – 2015 Moore, Zachary. Dynamics of a Large Submarine Landslide in an Active Margin from Particle Size Analysis, 3-D Seismic, and Logs: IODP Expedition 338, Nankai Trough, offshore Japan. University of Kentucky, Lexington, Kentucky, United States.

Undergraduate Senior Honors Thesis Advisor (1)

- 2016 – 2017 Mason, Robert Alan. Seafloor Brine Lake Impacted by Submarine Landsliding, Orca Basin, Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- Awarded an Undergraduate Research Scholarship by the College of Arts and Sciences Honors Program in 2016.
 - Lead author on a professional presentation at the 2016 Geological Society of America meeting in Denver, CO.

Undergraduate Senior Thesis Advisor (14)

- 2018 – 2019 Lager-Lowe, Kain. Three-Dimensional Seismic Interpretation of Near-Seafloor Salt Bodies and Fluid Expulsion Features Adjacent to the Mississippi Canyon, Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- 2018 – 2018 Fuad, Mohamad I. A Seismic Well-Tie Analysis at Integrated Ocean Drilling Program Expedition 308 Site U1320, Brazos-Trinity Basin IV, Northwestern Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- 2017 – 2018 O'Malley, Michael D. A Multi-channel Seismic Interpretation of the Canterbury Basin Offshore New Zealand and Potential Hydrocarbon Sources. The Ohio State University, Columbus, Ohio, United States.
- 2017 – 2018 Mason, Keith L. An Analysis of Shallow Sediment Overlying Gas Hydrate, Green Canyon Block 955 (GC-955), Gulf of Mexico, USA. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2017 Lenz, Brandi L. Shear Strength of Sediment Offshore Southern Alaska. The Ohio State University, Columbus, Ohio, United States.

- 2016 – 2017 Rodgers, Nick. A Numerical Simulation of a Tsunami Generated by a Submarine Landslide, Offshore Puerto Rico. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2016 Gutierrez, Mario. Upper and Middle Miocene Ash Beds in the Central Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2016 Rohan, Tyler. Grain Size and Seismic Analysis of IODP Expedition 333, Site C0018 and the Pink Volcanic Ash Horizon, Nankai Trough, Offshore Japan. The Ohio State University, Columbus, Ohio, United States.
- Won 1st place in the 2016 Ohio State University Denman Undergraduate Research Forum in the Natural and Mathematical Sciences Division
- 2015 – 2016 Haugh, Ryan. Styles of Soft-Sediment Deformation of the Lower Headwall of the Cape Fear Landslide, Offshore North Carolina. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2016 Copeland, Thomas. Grain Size Analysis of the Watershed and Nearshore Coastal Sediments in Coral Bay, St. John, U.S. Virgin Islands. The Ohio State University, Columbus, Ohio, United States.
- 2014 – 2015 Mills, Jacqueline. Mapping Key Subsurface Boundaries to Determine Maximum Thickness of Methane Hydrate within the Blake Ridge Region of Offshore North Carolina, USA, Constrained with Three-Dimensional Seismic Data and Well Logs. The Ohio State University, Columbus, Ohio, United States.
- 2014 – 2015 Munson, Sarah. Petroleum Potential in the Carolina Trough. The Ohio State University, Columbus, Ohio, United States.
- 2014 – 2015 Nsona, John. Oil and Natural Gas Reserves of the Utica Shale in Ohio. The Ohio State University, Columbus, Ohio, United States.
- 2013 – 2014 Hodelka, Bailee. The Role of Foraminifera-enriched Condensed Section in Arresting the Movement of a Large Retrogressive Submarine Landslide in the Gulf of Mexico. The University of Kentucky, Lexington, Kentucky, United States.

Doctoral Student (Dissertation Committee Member) (8)

- 2020 – Present Braunagel, Michael. A Hydro-Thermo-Poroelastic Investigation of the Initiation and Emplacement of Large Volume Volcanic Landslides. The Ohio State University, Columbus, Ohio, United States.
- 2018 – Present Wei, Li. Diffusive Migration in Gas Hydrate Reservoirs. The Ohio State University, Columbus, Ohio, United States.
- 2017 – Present Price, James T. Coral Resilience to Global Change: Roles of the Microbiome and Animal Physiology. The Ohio State University, Columbus, Ohio, United States.
- 2017 – 2020 Knights, Deon. Quantifying Nitrate Attenuation in a Coastal Freshwater Wetland. The Ohio State University, Columbus, Ohio, United States.

- 2017 – 2020 Xiong, Fengyang. Desorption and Adsorption of Subsurface Shale Gas. The Ohio State University, Columbus, Ohio, United States.
- 2017 – 2019 Oti, Emma A. Using Nondestructive X-Ray Computed Tomography (XCT) to Solve Geologic Problems. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2018 Majumdar, Urmi. Natural Gas Hydrates in the Northern Gulf of Mexico. The Ohio State University, Columbus, Ohio, United States.
- 2015 – 2017 Scott, Jameson. Towards a Petrologically Constrained Thermal Model of Mid-Ocean Ridges. The Ohio State University, Columbus, Ohio, United States.

Masters Student (Thesis Committee Member) (7)

2017 – Present Alumni Committee, Member, (SES)
 2019 – Present Undergraduate Committee, Member, (Recruitment lead) (SES)
 2016 – 2018 Co-advisor of SURE, led by Prof. Anne Carey, (SES)
 2014 – 2016 Friends of Orton Committee, Member, (SES)
 2015, 2017 Denman Undergraduate Research Forum Judge
 2018 – 2019 Faculty representative on Arts and Sciences Faculty Senate, member
 2017 – Present University Senate Council on the Physical Environment, Member, Invited by President Drake
 2015 - 2017 Student mentor, Shell Undergraduate Research Experience program, (SES)
 2019-Present Graduate Faculty Representative on a dissertation in another Unit
 Service as a Graduate Faculty Representative on a Dissertation in another Unit or University
 Final Exam, 04/16/2019, MECHENG-PH, Travis Hery, (Prof. Vishnu Baba Sundaresan; advisor), “Smart Membrane Separators for Enhanced Performance of Lithium-Ion Batteries.”
 2017 – Present OSU Center for Energy Research, Training, and Innovation (CERTAIN) Faculty Advisory Committee, member
 2014 – 2016 Computing Committee, Member, (SES)
 2014- Present Faculty advisor, Society of Exploration Geophysicists Student Chapter, The Ohio State University

Service to the Profession

2019- Present Editorial Review Board, Scientific Reports
 2019- Present Mentor, American Geophysical Union, Mentoring365 Program
 2011-Present Peer reviewer for the following journals: Geology, Earth and Planetary Science Letters, Geophysical Research Letters, Marine Geology, Marine and Petroleum Geology, Journal of Geophysical Research-Solid Earth, Journal of Geophysical Research-Earth Surface

- 2017-Present Peer reviewer for NSF Marine Geology and Geophysics program (ad hoc and in-person), NSF PREEVENTS Program (ad hoc and in-person)
- 2016,-17, -19 Primary Convener, American Geophysical Union Fall Meeting
- 2015- 2017 Co-convener, American Geophysical Union Fall Meeting
- 2014 - 2019 Judge, Outstanding Student Presentation Award, American Geophysical Union, Fall Meeting
- 2017 Co-convener, American Association of Petroleum Geologists National Meeting, Houston, TX.
- 2017 Co-Convener, IODP Workshop “Western North Atlantic Slope Stability, Southern Methodist University, April, 2017.
- 2012-2015 Science Evaluation Panel, International Ocean Discovery Program
- 2015 Steering Committee, Marine Geoscience Leadership Symposium, Consortium for Ocean Leadership
- 2015 Seismic processing workshop held at Lamont-Doherty Earth Observatory, Columbia University, June 22-26, 2015.
- 2014- Steering Committee International Symposium on Mass Movements and Their Consequences
- 2014 Imperial Barrel Award Faculty Advisor, University of Kentucky
- 2013 Marine Geoscience Leadership Symposium, Washington DC, March 10-15.
- 2013- AAPG Student Chapter Faculty Advisor, University of Kentucky
- 2012 Building U.S. Strategies for 2013-2023 Scientific Ocean Drilling, Denver, CO, April 30 – May 2, 2012
- 2010 MARGINS Successor Program Planning Meeting, San Antonio, TX, Feb. 15-18
- 2010 Science Fair Judge, Austin Energy Regional Science Festival, Feb. 25
- 2009 Integrated Ocean Drilling Program INVEST Meeting, Bremen, Germany, Sep. 21-25
- 2009 Organized a Core-Log-Seismic Workshop for 25 participants (academia/government/private) as part of 4th International Submarine Mass Movements Conference, Austin, TX, November, 2009.
- 2009 Co-led Morphodynamics Workshop for 25 participants (academia/government/private) as part of 4th International Submarine Mass Movements Conference, Austin, TX, November, 2009.

Service to the Public

- 2018 Co-led Schlumberger software donation to The Ohio State University \$93M
Press release: <https://oe.osu.edu/schlumberger-donates-software-package-to-school-of-earth-sciences.html>
- 2016 Initiated and led education/outreach project utilizing seismometers during Ohio State football games. Project was featured in ESPN and local TV and news, including several interviews. Some Examples of Media Coverage:
Columbus Dispatch:
