

Can I take an asset off campus?

- An asset is anything purchased with funds through OSU, regardless of the cost. All electronics, computers, lab equipment, etc. purchased through OSU are owned and managed by OSU.
- Authorization to take an asset off campus is at the discretion of the SES's Asset Coordinator and Dean/VP/SFO/Designee.
- Contact SES's Asset Coordinator, or, one of the staff members below to request to take an OSU asset off campus to initiate the process
- There is a form to complete via docusign, the [AM-Asset Off-Campus Stewardship Form](#)
- When the asset is returned to campus, work with the Asset Coordinator to return the asset to release it from your custody. The [AM-Asset Off-Campus Stewardship Form](#) will be signed again via docusign indicating the asset is returned to SES.
